DETAILED ACTION

Remark

1. The earlier issued Double Patenting action is withdrawn.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-41 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 7-37 of copending Application No. 09/965242 in view of Kiyanagi (6,731,704). Copending Application No. 09/965242 disclosed a transmission system having a plurality of receivers, a down-converter, a filter coupled to the down-converter, an AD converter, an equalizer, and a trellis decoder but not a cross-channel interference canceller. However, such is well known in the art, as suggested by Kiyanagi (abstract). Therefore, it would

Art Unit: 2685

have been obvious to one of ordinary skill in the art to provide a canceller to the communication system of Copending Application No. 09/965242 in order to stabilize the operation of the communication system in accordance with the change of environment.

This is a provisional obviousness-type double patenting rejection.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kiyanagi (6,731,704), Kallman et al. (5,838,740), and Rowan et al. (WO99/45683A1) disclose radiotelephone communication system.
